المرجع: أسئلة - الأجوبة التوضيحية

بالإشارة إلى الموضوع والمرجع المبينين أعلاه،

بناءً على الأسئلة الواردة من الشركات، يود مصرف لبنان توضيح التالي والمبينة في اللون الأحمر

Q1- However, there are conditions that the supplies should be stocked and requested to be delivered within 10 days.

Most of those products should be fresh and can dry if stocked for a long time.

This condition cannot be technically satisfied for the above products for the quality of the products.

Also, the demand out of stock depends on the quantity required each time.

BDL is not also committed to purchase all the quantity. Some of the products need to be ordered and stocked for BDL only due to the models of the machines.

Please inform if the above conditions can be removed in order for CBM to be able to meet all the conditions of the bid.

A- BDL has already provided an approximate quantity for a two-year period, enabling the awarded companies to estimate the required quantity and plan storage and delivery accordingly.

Q2- We have a clarification regarding the word “Equivalent” mentioned next to most of the items.

Kindly specify the technical meaning for it.

A- The “Equivalent” to the item/product number should also be original product and not compatible, in case part number is different.

Q3-We need to know the width of the **(Black Roll Ribbon For Zebra GCT420T Label Printer)** in order to quote it right

A- Size 64 mm * 74 M
