I am sending this mail to clarify about the method to receive the sample for the bid No.389/2024 .

1- Question 1 :

Concerning the item#ITP000023 Neylon Foil Roll for BPS machine
Do you want to deliver a complete roll or a piece of roll for 3 meters ?

2- Question 2 :

Concerning the item#ITP000024 Neylon Foil Roll 25 micron for NOTA PACK
Do you want to deliver a complete roll or a piece of roll for 3 meters ?

3- Question 3 :

Concerning the item#ITP000012 Plastic Roll for wrapping banknotes.
We are not able to deliver a sample printed roll, we can just deliver sample of 3 meters or 1 complete roll.

Concerning the above 3 questions, no objection to deliver a 3 meter sample of each item, on condition that it is on the cartoon base roll and as per the specs mentioned (dimensions of roll) , in order to make sure that they are properly working on the machines,

As for the printing (Question 3), no problem to deliver a sample without any printings for the meantime, noting that the awarded company should provide a proof before printing.
