A detailed architectural floor plan of the Temple of Solomon. The plan shows a large outer court (Courtyard) with a central path leading to the inner sanctuary. The inner sanctuary is a square structure with a central Holy of Holies, which is a smaller square containing a large circular object (the Ark of the Covenant). The Holy of Holies is surrounded by a thick wall and has a single door. The inner sanctuary is also surrounded by a thick wall and has a single door. The plan includes various rooms, corridors, and a large staircase leading up to the entrance of the inner sanctuary. The drawing is a black and white line drawing, showing the layout and structure of the temple.

A horizontal scale bar with a black background and white markings. The markings are at 0, 2m, 4m, 6m, 8m, 10m, and 12m. The segments between markings are white, and the markings themselves are black.

PROJECT NAME:	CODE No:
REHABILITATION OF	L1202
GRAND SERAIL	

NOTES:

A detailed architectural floor plan of the Temple of Solomon. The plan shows the outer walls, the inner sanctuary, and the central altar. Two red squares are placed on the left and right sides of the central sanctuary, representing the locations of the pillars Jachin and Boaz. The plan is oriented with the entrance at the top.

A horizontal number line starting at 0 and ending at 12m. Major tick marks are labeled at 0, 2m, 4m, 6m, 8m, 10m, and 12m. The line is divided into six equal segments of 2m each. The segments starting from 0 are colored black, white, black, white, black, and white in sequence.
