MOBILE INTERIM COMPANY No.2 S.A.L.

AND

COMPUTER BUSINESS MACHINES (CBM) S.A.L.

Handwritten signature and official circular stamp of COMPUTER BUSINESS MACHINES (CBM) S.A.L.

THIS ANCILLARY AGREEMENT (Hereinafter referred to as the “**Ancillary Agreement**”) to the Security Information and Event Management Solution Contract of Adherence entered into between Mobile Interim Company No. 2 S.A.L. and Computer Business Machines (CBM) S.A.L. on the 22nd of April 2024 (Hereinafter referred to as the “**Contract of Adherence**”), is made by and between:

Mobile Interim Company No. 2 S.A.L., a company registered under the laws of Lebanon, incorporated at the Trade Register of Beirut under the number /1000382/, and registered at the Lebanese Ministry of Finance under the number /291711/, electing domicile at Beirut Central Building, Bloc B, Fouad Chehab Avenue, Bachoura Region, Beirut, Lebanon. (Hereinafter referred to as “**MIC2**”)

AND

Computer Business Machines (CBM) S.A.L., a company incorporated at the Baabda Trade Register under number /31692/, and registered at the Lebanese Ministry of Finance under the number /9064/, electing domicile at Fanar Region, Sector 6, Street 11, CBM Building, El Metn, Lebanon, represented in this Ancillary Agreement by its Chairman General Manager Mr. Pierre Daoud Abi Jawdeh. (Hereinafter referred to as “**Supplier**”)

MIC2 and **Supplier** are individually referred to herein as a “**Party**” and collectively referred to herein as the “**Parties**”.

RECITALS:

The Parties have entered into the Contract of Adherence on the 22nd of April 2024, which have standardized the terms and conditions upon which Supplier shall provide a “Security Information and Event Management” solution with related hardware, software, and licenses in addition to the following services: installation, integration and implementation, maintenance and support, in order to enable MIC2 build and improve methods to collect, detect, correlate and automate security events from different network entities to secure it’s network;

Whereas, during the implementation of the Contract of Adherence, a need has emerged to introduce an expansion to the benefit of MIC2 for the QRadar EPS license from 8000 EPS to 25,000 EPS in addition to related services based on the scope of work, service level agreement and fees detailed specifically in Schedule (1) enclosed hereto;

D

Whereas, the provisions of the Public Procurement Law Number 244 dated 19 July 2021 and particularly those of Article (46) - Section (3) enables direct contracting for such case;

NOW THEREFORE, and as of the Effective Date herein below, and in consideration of the Parties' business relationship, the Parties mutually agree as follows:

Article 1:

The Recitals hereinabove and any Schedule annexed hereto shall form an integral part of this Ancillary Agreement and of the Contract of Adherence.

Article 2:

By means of this Ancillary Agreement, and as of the Effective Date herein below, Parties agree on applying to the Contract of Adherence an expansion to the benefit of MIC2 for the QRadar EPS license from 8000 EPS to 25,000 EPS in addition to related services based on the scope of work, service level agreement and fees detailed specifically in Schedule (1) enclosed hereto.

Such expansion with its related services shall be executed in return for an additional total amount of USD /200,000/ (Only Two Hundred Thousands United States Dollars) on top of the total cost defined through Article (7) of the Contract of Adherence.

The said additional total amount shall be invoiced to MIC2 further to the related issued Purchase Order under the following scheme:

- 100 % for the licenses expansion including the software subscription and support services upon the issuance of MIC2 to the Final Acceptance Certificate (FAC) for the licenses installation.
- 100 % upon the issuance of MIC2 to the Final Acceptance Certificate (FAC) for the completion of each use case and/or each playbook.

MIC2 shall settle any invoice issued under this Ancillary Agreement within sixty (60) days from the date of its receipt and acceptance by MIC2, at market rate in LBP currency through wire bank transfer to the Supplier's following bank account details:

Bank Name: Bankmed S.A.L.

Branch: Jdeideh Branch

Account Holder: Computer Business Machines (CBM) S.A.L.

Account Number: 006 01400L0190909000

IBAN: LB870022000001400L0190909000

Account Currency: LBP

SWIFT Code: MEDLLBBX

A

Article 3:

3-1: Notwithstanding anything to the contrary, the Contract of Adherence and this Ancillary Agreement set forth the entire understanding and obligations between the Parties regarding the subject matter.

3-2: This Ancillary Agreement shall be read in conjunction with the Contract of Adherence. However, in the event of any inconsistency between the terms of the Contract of Adherence and this Ancillary Agreement, except as explicitly stipulated herein, the terms of the Contract of Adherence shall prevail.

3-3: Except as explicitly stipulated in this Ancillary Agreement, the terms of the Contract of Adherence shall continue in full force and effect.

IN WITNESS WHEREOF, the Parties have caused this Ancillary Agreement to be executed in Beirut in two (2) original copies on 24.04.2026 ("Effective Date") by their respective authorized representatives, each party keeping one original copy.

SCHEDULE (1)

Scope of Work - Service Level Agreement (Total Timeframe: 115 business days)

IBM QRadar Security Risk and Control Assessment:

Scope:

Supplier to evaluate MIC2's cybersecurity posture using real-world adversary behaviors analysis as defined by the MITRE ATT&CK Framework. This includes identifying gaps in detection, response, and prevention capabilities across the attack lifecycle.

Recommendation:

Map existing security controls to MITRE ATT&CK tactics and techniques.

- Identify detection and response gaps using adversary emulation.
- Prioritize remediation based on threat relevance and business impact.
- Enhance threat intelligence and incident response capabilities.

IBM QRadar Use Cases and Playbooks Design:

Scope:

Supplier will provide consultancy for QRadar use case and incident response design, build and development following the security risk assessment, a review of the existing use cases and suggest enhancements to develop the additional use cases based on the initial project scope within the IT Environment only.

Recommendation:

Identified business threats will be high-level use cases. These can be further broken down into low-level use cases.

IBM QRadar Use Cases and Playbooks Development:

Scope:

Development of Use Cases and Playbooks based on the agreed design stage in between MIC2 and Supplier.

Recommendation:

Develop fifteen (15) Security Use Cases and three (3) Playbooks.

Post-Implementation Support and Validation:

Scope:

Provide post-deployment support to ensure system performance and to address any issues.

Recommendation:

Deliver post-implementation support, including correlation, integration, automation, tuning and any additional functionality.

Service Level Agreement

Support must be provided to MIC2 on a daily basis excluding weekends and official Lebanese public holidays from 8 AM till 5 PM on all software and hardware provided with the EPS expansion.

- 24/7 Help Desk Support for immediate over the phone support.
- 24/7 Ticket System for logging non-urgent requests.

The Preventive Maintenance must be done by the Supplier on a regular basis (once every 6 months) being a set of pre-defined and scheduled activities to check the EPS system, to restore whenever necessary the initial parameters and to replace the eventual faulty equipment.

The Corrective maintenance must resolve any hardware faults or failure identified by the authorized users of the EPS or the Supplier and it includes both software and hardware faults.

SLA
Mean time to repair (Severity 3 - Critical: backend platform) 3 hours as of ticket opening, response time 30 minutes as of the resolution starts.
Mean time to repair (Severity 2 - Major: Log sources) 6 hours as of ticket opening, response time 1 hour as of the resolution starts.
Mean time to repair (Severity 1 - Medium: Other) Next Business Day, response time 2 hours as of the resolution starts.
KPI
EPS system availability 99.999% for the backend platform mentioned in severity 3

Price Schedule
