---

Dear Sir/Madam,

Reference to the consulting services tender document related to CHUD Financial and Internal Control System Audit.

Further to the letter submitted by one of the candidates of the services mentioned in the subject above, who states that the Lebanese Red Cross cannot guarantee security escort services for personnel in the event of an accident and seeks clarification on how to comply with the tender requirements, we would like to provide the following clarification.

The Security Terms of Reference attached to the tender documents for the CHUD audit mission (Section VII – Terms of Reference – Security) do not require confirmation from the Lebanese Red Cross regarding the provision of escort services in the event of a security incident. Rather, bidders are required to present, as part of their technical proposal, a security methodology demonstrating the measures that will be implemented throughout the assignment to ensure the safety and protection of their personnel, including the preventive and protective resources and procedures to be deployed.

It is important to mention that the tasks required to complete this Audit mission include the following:

- A financial audit, which can be carried out using documents provided by the CDR;
- A procurement audit, which can also be carried out using documents provided by the CDR;
- A technical audit of the work carried out within the framework of two projects financed by the AFD. Given the current circumstances, and considering that this audit requires on-site verification, projects located outside of hotspots will be selected.

Please note that all clarifications shall be integral part of the RFP and shall be signed and submitted with your technical proposal.

Yours faithfully,

Council for Development  
and Reconstruction

  
Mohamad-Ali Kabbani
