إجابات وتوضيحات على بعض الاستيضاحات العائدة للمناقصة العمومية لتلزيم تشغيل وصيانة وتأهيل وكتابة برامج جديدة في الصندوق الوطني للضمان الإجتماعي والتي ستجري بتاريخ 2025/8/5

1) **Should the existing systems be fully re-implemented on the Intalio or similar platform, or is the expectation limited to integrating them with the new systems?**

   - Yes, the system should be redesigned and implemented using Microsoft technologies.

2) **Could you please provide details on the total volume of data to be migrated (e.g., number of records, data size in GB or TB)?**

   - The database size is around 400 Gb

3) **Which systems or databases currently host the data that is planned for migration?**

   - Windows server 2012r2 with MS SQL 2012

4) **Is the data distributed across multiple systems, platforms, or physical locations?**

   - Yes, data is distributed over multiple databases and replicated to several locations the new system should be centralized on one database and replicated to other locations.
