# جانب هيئة الشراء العام

إيضاحات حول المناقصة العمومية لتوريد وتركيب خوادم ولوازمها في المبنى الرئيسي

للصندوق الوطني للضمان الاجتماعي   2025 / 1726 CNSS.

نفيدكم بما يلي:

1- Infrastructure & platform

a-Hypervisor currently being used (VMWARE ESXI).

b-there is no immediate plan to migrate to another Hypervisor.

c- around 400 virtual machines + we have physical servers (not virtualized).

d- Windows is the OS types of these VMs.

2- Storage & Data

a- Around 25 TBs of data.

b- All data are stored on the server's disk, any data not stored on the disks are not included in the total and should not be migrated.

c- Protocol used to connect to the storage: SCSI.

3- Cloud Integration

a- On-premises only.

b- N/A (no data is in the cloud, no provider is used).

4- Application & Services

Data bases, web servers, AD, windows virtual machines, development servers, file servers.

5- Migration window & Business Impact

No downtime (zero for almost all systems).

6- Backup & Resiliency

Backup of all data and VMs exist.

7- Network planning

We keep the same IP schema.
